# CHLOE KISER

## Junior Design Fellowship

January 2023-May 2023

Similar to the MARCOM internship similar position but now paid position with a new name. Still having hand-on client interaction with deadlines. Includes ordering materials like posters, programs, business cards and name badges.

## Marketing and Communications Internship

August 2022-December 2022

The MARCOM internship, with Alan Carter, has allowed me to have extensive hand-on client interaction, with strict deadlines. This internship opportunity required extensive skill mastery of Adobe products, as well as high communication skills, and collaboration with the team. As this internship goes on I work on designing and ordering a handful of different items. This includes a publication, business cards, "one-pagers", name badges, and more.

## Graphic Design Internship

August 2020-December 2020

The internship with Nate Gulledge took place over a designated five-month period. Designed for personal growth and interaction with clients. During this internship, client work and one on one interaction with the mentor of the internship to grow my design reservoir.
